

## State of Ohio recognizes Trilogy Plastics, Inc.

Trilogy Plastics, Inc. --- a full-service, ISO 9001 certified custom rotational molder and leader in the field of high quality rotationally molded parts and assemblies with processing facilities in Alliance, Ohio --- has been congratulated by The State of Ohio, House of Representatives for being named to the Best Places to Work in the Plastics Industry for 2016 by *Plastics News*.

The congratulations cited Trilogy Plastics as being ranked eleventh amount the 15 Best Places to Work in the Plastics Industry, and this prestigious distinction recognizes the company for offering President Awards and other incentives to employees for exemplary performance. Over the years, the staff has consistently demonstrated professionalism and expertise, as well as commitment to maintaining the highest quality standards, and due to the exceptional effort and initiative its workforce has exhibited, the business has achieved a tremendous record of service to its clients. This noteworthy enterprise is truly deserving of praise.

The accomplishments of Trilogy Plastics are a justifiable source of pride and an outstanding reflection not only on the organization itself but also on its astute management, on its hard-working employees, and on the community. This fine establishment has enhanced the quality of life within the surrounding area, and we are certain that in the years to come, it will continue to display the same unwavering dedication to excellence for which is has become known.

Since its founding, 30 years ago, Trilogy Plastics has grown dramatically and today provides manufacturing services that include rotational molding, 5-axis CNC machining and high pressure foaming --- all backed by engineering, design support and project management. Value-added processes include a wide variety of assembly, decorating, and packaging expertise, giving it the capability of serving a diversified customer base that includes, but is not limited to, the major markets of heavy truck, outdoor, Industrial, medical and consumer.
